

To Whom It May Concern,

The Alaska Manufacturing Extension Partnership, Inc. hired The Moving Man to conduct a move of our entire 15 room office to a new location at the end of June of this year. We were extremely pleased with the level of service we received. The movers were friendly and went out of their way to help our staff. They were punctual and reliable. We were very busy during that time and their speed, care and efficiency were a tremendous help in getting our new offices set up.

This is not the first instance when we have relied on The Moving Man, three years ago we hired them to conduct a similar move and the results were the same. On both occasions we received efficient and reliable service. They were able to provide us with good estimates, moving supplies and both projects were completed under time and under budget.

We wholeheartedly recommend The Moving Man and would like to once again commend them and their staff for a job well done.

Sincerely,

Derick Temiz

Operations Coordinator

Alaska Manufacturing Extension Partnership, Inc.
